# MANCHURIA IS IN WASHINGTONIAN MYSTERY SIGNAL WITH TOURIST HOST PICKED UP BY FREIGHTER MAKES FIRST BOW AT THIS PORT

In addition to several private touring parties, making a journey to include Japan, China, the Philippines, Federated Malay states and the Indian peninsula, a delegation of individual "trippers" to stop off at Hawaii were a factor in the list of passengers who reached the port in the Pacific Mail liner Manchuria.

The vessel steamed from San Francisco with 31 cabin and 17 second-class passengers for Hawaii. The big liner was found well crowded with through travelers who to the number of 196 cabin, 20 second-class and 451 Asiatic steerage passengers will be left at various points along the coast of Asia.

The resumption of a freight service by Japanese and British lines operating from the north Pacific coast is said to have lessened the congestion of cargo heretofore awaiting shipment to the Far East.

The proposition to place the Pacific Mail freighters Aztec and Alcoa in the transpacific service has been abandoned for the present, so stated officers this morning.

Police officers were called upon to take charge of one stowaway.

The vessel steamed from San Francisco to Honolulu in five days and 20 hours. Fine weather is said to have been the rule. The vessel will be dispatched for Japan at 5 o'clock this evening, following the discharge of 336 tons of cargo and the loading of several hundred tons of coal.

The Manchuria met with some difficulty in gaining a berth at Pier 7 because of its heavy draught in carrying 10,987 tons of through cargo.

## PASSENGERS ARRIVED

Per S. S. Manchuria, Dec. 18.—C. B. Andrews, Mrs. C. B. Andrews, Miss Edith Andrews, E. R. Bath, Mrs. C. O. Bell, Chas. A. Belmont, Mrs. H. M. Boyajohn, Mr. and Mrs. M. H. Brownell, Miss G. E. Wagon. From Honolulu—Wm. and Mrs. Briggs, Master G. Briggs, J. F. Comins.

Ritnet to Load Sugar Barges.  
Sugar will serve as ballast for the American bark R. P. Ritnet, scheduled to depart for the coast within a few days. The Ritnet has been discharged of a shipment of general merchandise brought to the port from San Francisco. It is stated that the sailing vessel will not take a full cargo of sugar.

A late addition to the American-Hawaiian big fleet of "freight" carriers, the Washingtonian, embodying the last word in marine construction and appliances for the speedy handling of cargo, is an arrival at Honolulu today.

In command of Capt. E. D. Broadhead, with a staff of officers and men new to the port, the Washingtonian steamed from San Francisco to Honolulu in a little less than seven days. The new vessel is one of several freighters recently placed in service by the American-Hawaiian line that are provided with increased amount of refrigeration space. Designed along lines similar to the Olan and other late additions to the fleet, the Washingtonian may be employed in the movement of fresh fruits from California and the Sound to the east coast of the United States.

Supplied with cargo from New York, the Washingtonian steamed into the Pacific by way of Panama canal. A stop was made at Los Angeles. The vessel will leave about 800 tons of freight at Honolulu before steaming for island ports to take on sugar.

## Locksun Coal to Holstia.

While the German steamer Locksun, arriving at the port in company of the gunboat Geier, is interned until the close of the European war its coal does not come under such provision. Today a quantity of fuel brought to the port in the Locksun is being transferred by means of scows to the big German freighter Holstia. The latter vessel is moored at Pier 16 where the last of 4000 tons of heavy machinery and cargo is being transferred to the Japanese steamer Anyo Maru. The Locksun still occupies a berth at the naval wharf.

## Manchuria's Chief a Benedict.

W. A. Rideout, chief engineer in the Pacific Mail liner Manchuria, joined the ranks of the benedicts during the 60-day vacation granted him by the company. Chief Rideout greeted a host of Honolulu friends this morning with the admission that he had taken a Santa Clara young woman and installed her in a pretty country home near Palo Alto as Mrs. W. A. Rideout.

## Swazie Due on Sunday.

The British freighter Swazie, with cargo en route from New York and eastern coast ports to the Orient by the way of Panama canal, is reported to be due at this port Sunday to take on a supply of bunker coal.

circumstances could it refer to the position of the ship.  
The weather at the time was favorable for a speedy completion of the voyage to the Coast.

## Alpha Cements Warring Nationals.

Tenon and British tars joined in the singing of "Aloha" at the close of an enjoyable entertainment given last evening at the Seamen's Institute under the direction of Superintendent Mant. Through the kindness of a number of friends of the institution a capital program of games, sports, recitations and songs was launched. J. H. Boper received the thanks of a large number of seafaring men for

his tender of a fine new phonograph and a large collection of records. Light refreshments assisted in rounding out a pleasantly spent evening.

## To Restore Australian Service.

The Canadian-Australasian liner Niagara is understood to have steamed from Sydney for Honolulu and Vancouver and is due to arrive at the Hawaiian islands about December 30. The elimination of German warships as a menace to shipping of the Allies upon the Pacific is expected to result in considerable increase in travel between the Australian commonwealth and British Columbia.
